dōTERRA®

Power To Be | Alternate Class

We're so excited for the upcoming Power to Be in 2023 metabolic health challenges! While the MetaPWR system is the focus for these challenges, we understand many of you would like a modified version to share with those in your community who won't be using MetaPWR system products (for example, maybe your community is vegan).

We still want you and your community to be part of these challenges! Both the MetaPWR system and LLV will be highlighted in the 30-day challenges, but this is the perfect time to focus on the vegan version of LLV, if that's what works best for you and your community.

If you're looking for an alternative Power to Be presentation to share with your community, make a few modifications to the original class for your community. Use slides 1–4 in the presentation. Then add a few slides that focus on the products you'd like to highlight instead of the MetaPWR system. You'll still invite your community to register for a metabolic health challenge and connect with dōTERRA on platforms that'll best support their learning.
